

Inventory Management System

An Inventory Management system is an attempt to integrate all functions across a company to a single computer system that can serve all those functions specific needs.

- ✦ Integration of a single source of data.
- ✦ Common data definition.
- ✦ A real-time system.
- ✦ Increased productivity.
- ✦ Reduced operating costs.
- ✦ Improved internal communication.
- ✦ Foundation for future improvement.
- ✦ Improved customer service and order fulfillment.
- ✦ Improved communication with suppliers and customers.
- ✦ Enhanced competitive position.
- ✦ Increased sales and profits.
